## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the manipulation of the particulars, terms and conditions, editing, merchant ID, e-mail receipt and product search box must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Treyz et al., US 6,526,335.

Art Unit: 3627

Treyz discloses a method for electronic purchases comprising a merchant server, e.g. col. 62, lines 17-40, a purchaser server network accessed by personal computer 14, e.g. col. 56, lines 14-46, a locality identification, e.g. col. 60, lines 46-67, and product pick-up locations, e.g. cols. 57-58, lines 22-9. Treyz does not specifically disclose the term merchant identification (ID) nor zip code ID's. However, Treyz does allow for secure electronic purchases and location identification and to have provided a merchant ID and zip code ID would have been obvious to one of ordinary skill in the art. Doing such implement common knowledge used in electronic transactions when determining the street address and city location of a participating merchant.
